

THE SMART ALTERNATIVE TO VINYL WINDOWS NOW WITH CONVENIENT CLEANING

NEW!

SUPERIOR DARK COLORS

- Economical dark colors offered inside and out.
- Durable capping provides maximum protection and a low-maintenance matte finish.
- Finish is 12X thicker than painted vinyl* for superior scratch resistance.

DESIGNED FOR CONVENIENCE

- Tilt-wash design for easy cleaning.
- Consistent look and equal sightlines across 100 Series products.
- Low-maintenance Fibrex® composite material won't fade, flake, blister, or peel.
- Dual-sash operation for top and bottom ventilation.

EASY INSTALLATION

- Insert frame now available for easy installation into existing openings. Flange and no-flange frame types also available.
- Window combinations with non-reinforced joining kits or factory joins.
- Common frame depths allow for simplified interior finishing.
- Factory-integrated WOCD saves time and provides a seamless look.

100 SERIES Double-Hung Windows

COLOR OPTIONS

100 Series products feature interiors with a premium matte finish for an attractive appearance, and exteriors that never need painting and won't fade, flake, blister or peel*, even in extreme cold or heat.

EXTERIOR COLORS

Printing limitations prevent exact duplication of colors. See your Andersen supplier for actual color samples.

INTERIOR COLORS

All exterior colors available with white interior. Black, dark bronze, sandtone, and white exteriors are available with matching interiors.

ACCESSORIES

WINDOW OPENING CONTROL DEVICE

The WOCD features an integrated design that limits the sash opening to less than 4" without sacrificing aesthetics.

INSECT SCREENS

Half and full insect screen options are available and made of fiberglass mesh.

Optional TruScene® insect screens provide 50% more clarity than our conventional Andersen insect screens and let in 25% more fresh air,** all while keeping out unwanted small insects.

For more information, visit andersenwindows.com/100series

*Visit andersenwindows.com/warranty for details.

**TruScene insect screens let in over 25% more fresh air than standard Andersen fiberglass insect screens.
