REALIZE YOUR VISION

INTERIOR AND EXTERIOR WOOD SPECIES

Select from an expansive array of the finest grades of wood species to add warmth and beauty to your home’s entranceway. Available on both the interior and exterior of your door.

Brick Mould and Interior Casings

A variety of exterior brick mould and interior casing profiles are available.

*Actual wood species is either Sapele or Sipo, both non-endangered species grown in Africa, with color and characteristics similar to Central American mahoganies. Naturally occurring variations in grain, color and texture of wood makes each window or door one of a kind. Printing limitations prevent exact replication of finishes. Please see your Andersen supplier for actual finish samples.

COLOR OPTIONS

Make a bold first impression with color – choose from 50 commercial-grade, aluminum exterior color options. On the interior of the door, choose from our painted options or enjoy the look of unfinished wood.
